

Mr Alexander MASTROVITO

Head of Sustainable Transport Solutions – Scania Asia & Oceania, Scania Group

Alexander Mastrovito is the project leader for Scania's deployment of autonomous trucks in Singapore, the architect of Scania's Hong Kong Fleet Management Centre and the head of sustainable transport solutions for Scania in Asia and Oceania. Alexander is responsible for promoting and implementing future solutions - electric and alternatively fueled vehicles, connected transports and self-driving trucks and buses. Prior to joining Scania, he was based in Beijing and has now spent 11 years in the Greater China region working in the automotive industry. Alexander currently holds positions within several environmental policy making bodies in Hong Kong.
