

Half-day training for Sustainability and Procurement Professionals in the Construction and Property Development Sectors

Managing your Procurement and Supply Chain

(85107)

Our buildings and infrastructure can only be truly green and sustainable if materials are sustainably sourced, and low pollution and socially responsible processes are used to build them.

This training will make use of real world examples to take you through sustainable supply chain management best practices and material standards.

It will also include an introduction to ISO20400, to be published in early 2017, as the world gets ready for a global standard that says 'how to do' Sustainable Procurement.

Join this highly interactive half day course, co-organised with Action Sustainability and BEC for Sustainability and Procurement Professionals from the public and private sectors about how to help your organisation protect its reputation and increase its competitive advantage through Sustainable Procurement!

TRAINING DETAILS

Date:	13 December 2016 (Tuesday)
Time:	14:30 – 18:00 (3.5 hours)
Venue:	BEC Headquarters, 77 Tat Chee Avenue, Kowloon Tong, Hong Kong

MEDIUM OF INSTRUCTION

English.

CERTIFICATION

A Certificate of Attendance will be awarded to participants after the training.

TUTORS

Danielle Mulder

Director, Action Sustainability Asia Pacific

Danielle Mulder is an experienced sustainability leader specialising in the field of sustainability strategy, procurement and supply chain. Prior to working in the sustainability sector, Danielle was a management consultant in London, San Francisco, New York and Singapore with Accenture and KPMG delivering large scale ERP (Oracle and SAP) and procurement transformation projects for global companies.

Danielle has a strategic sourcing and finance background which she integrates into sustainable procurement strategies to achieve triple bottom line value outcomes. Danielle is a whole of life measurement specialist and combines financials with environmental impacts (life cycle analysis) and social return on investment models.

Amie Shuttleworth

Global Head of Sustainability, Cundall

Amie is Cundall's Global Head of Sustainability, leading the integration of sustainability within the business strategy, using the philosophy of One Planet Living with the 4 cornerstones of: Homes and Community, Workplace, Projects and Industry Leadership.

She leads strategic projects with key clients in the Asia market, specifically on strategic sustainability for businesses operating within the built environment. Although Amie grew up in HK, most of her career has been in Europe, where she worked for main contractor Sir Robert McAlpine in various roles including construction management, design management and lastly their Head of Sustainability. She authored their sustainable procurement policy and strategy, was a founding partner of the Supply Chain Sustainability school, and introduced an engagement strategy with their supply chain.

About Business Environment Council Limited 商界環保協會有限公司

Business Environment Council Limited 商界環保協會有限公司 ("BEC") is an independent, charitable membership organisation, established by the business sector in Hong Kong. Since its establishment in 1992, BEC has been at the forefront of promoting environmental excellence by advocating the uptake of clean technologies and practices which reduce waste, conserve resources, prevent pollution and improve corporate environmental and social responsibility. BEC offers sustainable solutions and professional services covering advisory, research, assessment, training and award programs for government, business and the community, thus enabling environmental protection and contributing to the transition to a low carbon economy. For more information in BEC, please visit www.bec.org.hk.

About BEC Institute of Environmental Education

BEC Institute of Environmental Education ("BEC IEE"), a division of BEC, provides a platform for business managers and decision makers, to advance their knowledge and develop the expertise necessary for environmental decision-making. BEC IEE also facilitates professional development by promoting quality environmental education through various environmental education programmes. For further enquiries or assistance, please contact BEC IEE at beciee@bec.org.hk.
