

Dr Nadira Lamrad

Assistant Director – Sustainability & ESG Advisory
BEC

Dr Nadira Lamrad manages the sustainability and ESG advisory team at the Business Environment Council. Prior to joining BEC, Dr Lamrad completed her PhD during which she specialized in global governance, private regulation, corporate responsibility and sustainability. In her academic capacity, Dr Lamrad developed and published innovative models for understanding how corporate responsibility is operationalized. Her research agenda debates both the theoretical and practical role of business in the development and implementation of corporate responsibility and sustainability policies.

As a result of ten years of related research and analysis, Dr Lamrad has in depth specialist knowledge in corporate responsibility and sustainability that provides her with the essential expertise to identify and assess ESG risks, and make informed predictions regarding future developments.
