

## BUILDING INFORMATION MANAGEMENT (BIM) LEVEL 2 AWARENESS TRAINING (Course Code: 86119) 26 September 2018 (10:00 to 12:00)

Building information modelling (BIM) utilises information-rich models through collaborative working processes to improve the quality of information provided at the design, construction and operational phases to save costs by eliminating waste. Mr Paul Oakley, Director of BRE BIM Division, will give you an understanding of the drivers and key developments that led BIM Level 2, as well as providing the context needed to understand why specific elements are included in or excluded during the BIM certification.

### Content

- Catalyst for Change
  - Global drivers to the adoption of BIM
  - Learning lessons from the past
  - The effect of poor information management on projects
  - The Avanti Programme for mitigating poor information
- What is BIM?
  - BIM, BIM and BIM
  - BIM terminology
  - BIM maturity levels
  - Core, extended suit of standards, documents and deliverables describing BIM Level 2
- Cases sharing

### Speaker

**Mr Paul Oakley** Director, BRE BIM Division  
BA(HONS), DIP, ARCH, RIBA

Paul Oakley is a chartered Architect and a world leading expert in BIM. He heads the BIM Division at the Building Research Establishment (BRE) where he is responsible for the technical delivery of the BRE Academy BIM training, the BIM certification schemes delivered under the BRE Certification mark and BIM research projects. ## About Business Environment Council Limited 商界環保協會有限公司

Business Environment Council Limited ("BEC") is an independent, charitable membership organisation, established by the business sector in Hong Kong. Since its establishment in 1992, BEC has been at the forefront of promoting environmental excellence by advocating the uptake of clean technologies and practices which reduce waste, conserve resources, prevent pollution and improve corporate environmental and social responsibility. BEC offers sustainable solutions and professional services covering advisory, research, assessment, training and award programs for government, business and the community, thus enabling environmental protection and contributing to the transition to a low carbon economy. For more information in BEC, please visit [www.bec.org.hk](http://www.bec.org.hk).

## About BEC Institute of Environmental Education

BEC Institute of Environmental Education ("BEC IEE"), a division of BEC, provides a platform for business managers and decision makers, to advance their knowledge and develop the expertise necessary for environmental decision-making. BEC IEE also facilitates professional development by promoting quality environmental education through various environmental education programmes. For further enquiries or assistance, please contact BEC IEE at [beciee@bec.org.hk](mailto:beciee@bec.org.hk).

## About BRE Academy

BRE Academy is the leading international provider of blended learning training and education programmes for professionals and employers. Developed by BRE and industry experts, its content rich, high quality courses, both online and classroom, along with learning materials, are shared with a vast audience from students to professionals who work within the Built Environment. It is the lifelong learning extension of BRE, a world leading multi-disciplinary building science based company, whose mission is to improve the built environment through research and knowledge generation. bBRE Academy's aim is to help organisations meet their business objectives, support professionals in their careers, and further develop the next generation of skilled operatives in the industry. For more information in BRE Academy, please visit <https://bre.ac/about/>.

## About Hong Kong Centre for Carbon Innovation

Hong Kong Centre for Carbon Innovation ("HKCCI") is led by the Edinburgh Centre for Carbon Innovation ("ECCI") and is part of the University of Edinburgh ("UoE"). Our Partners include Edinburgh Napier University, BRE Scotland, and the Scottish Government (through Scottish Development International). HKCCI supports the exchange of know-how, enterprises and people with expertise in low-carbon solutions, clean energy, and UoE's world-famous biomedical sciences between Scotland and the Hong Kong and Chinese markets. For more information in HKCCI, please visit <http://www.hkcci.com.hk/>.
