* **Early Bird Discount** (5%) – on or before 22 April 2019.

* **Group Discount** (5%) – for group of 2 or more from the same organisation.

* **Additional Discount for BEC Member**
Council Member (10%); Corporate or General or Affiliate Member (5%).

A better understanding of the inspection and management of airborne mould in indoor environment is crucial for the improvement of indoor air quality (“IAQ”) and the minimization of the airborne infection. The World Health Organisation published the IAQ guidelines to address the problem of dampness and mould, and selected pollutants in 2009 and 2010 respectively. Recently, the HKEPD has completed a review of the current IAQ Certification Scheme for Offices and Public Place (‘IAQ Certification Scheme’). The new IAQ objectives, including a new parameter of mould, will be launched on 1 July 2019. This training will provide the participants with all essential knowledge in indoor mould inspection and management and help the participants to prepare for the new IAQ objectives implementation in 2019.

Content

- Principle of mould growth in indoor environments
 - Ecophysiology, diversity and dynamic
 - Sources and related health effects
 - Biological, environmental and mechanical factors
 - Exposure in different types of building
 - Local and global guidelines and standards
- Techniques in mould inspection
 - Inspection methods and equipment
 - Step-by-step inspection (i.e. Checklist for assessing the compliance with the IAQ objectives on mould under the IAQ Certification Scheme)
 - Result interpretation
- Prevention and control of mould growth in indoor environment
 - Building design, construction and maintenance
 - Remediation strategies and procedures
- Mock inspection and exam (in MC format)

Speaker – Dr Veronica Chan

Programme Manager – Education, BEC

Dr Chan has over 14 years of experience in environmental-related research, consultancy, and training at various levels ranging from primary to postgraduate levels. Her expertise and research interests include monitoring and disinfection of the bioaerosols, health risk assessment, investigation and modelling of the indoor air quality (IAQ) pollutants. She has published 40 papers on peer-reviewed international journals and at conferences, contributed as an international journal reviewer, and participated in more than 100 IAQ-related projects. Prior to joining the BEC, she worked in City University of Hong Kong, the Hong Kong Polytechnic University, the Hong Kong Community College, and the Hong Kong Institute of Vocational Education.

Medium of Instruction

Cantonese supplemented with English training materials.

Certificate

A Certificate of Completion will be awarded to participant who passed the exam successfully.

- Personal data including contact information will be used by BEC for its communications and direct marketing purpose, including newsletters and promotions of events, training courses and other activities. If you do not wish to receive any further promotional materials from BEC, please send an email to us at unsubscribe@bec.org.hk; and
- Information provided will be kept strictly confidential and will not be sold, reused, rented, loaned, or otherwise disclosed to third party.

About Business Environment Council Limited 商界環保協會有限公司

Business Environment Council Limited ("BEC") is an independent, charitable membership organisation, established by the business sector in Hong Kong. Since its establishment in 1992, BEC has been at the forefront of promoting environmental excellence by advocating the uptake of clean technologies and practices which reduce waste, conserve resources, prevent pollution and improve corporate environmental and social responsibility. BEC offers sustainable solutions and professional services covering advisory, research, assessment, training and award programs for government, business and the community, thus enabling environmental protection and contributing to the transition to a low carbon economy. For more information in BEC, please visit www.bec.org.hk.

About BEC Institute of Environmental Education

BEC Institute of Environmental Education ("BEC IEE"), a division of BEC, provides a platform for business managers and decision makers, to advance their knowledge and develop the expertise necessary for environmental decision-making. BEC IEE also facilitates professional development by promoting quality environmental education through various environmental education programmes. For further enquiries or assistance, please contact BEC IEE at beciee@bec.org.hk.
