This full-day advanced training on the WELL Building Standard v2™ will be delivered by Ms Victoria Gilbert – past Vice President at IWBI. It will drive deeper into the standard, building on introductory presentations to examine key processes with WELL Certification and exploring WELL Concepts in depth. The process for developing Alternative Adherence Paths will be discussed in the context of a scenario, as well as procedures for seeking equivalencies, using Crosswalks, and developing innovations. Key public health research will provide a basis to consider each WELL Concept in depth, allowing for a greater discussion of how WELL Features address environmental concerns. Finally, preconditions will be presented in the context of a project scenario, and a breakout activity which will utilise expert groups and a project checklist will allow participants to consolidate their learning.
