

Regulatory Compliance for Environmental Legislation of Hong Kong (81908)

There are increasing concerns regarding environmental quality in Hong Kong. A series of environmental legislation in different areas such as air, noise, wastewater, and chemical and construction wastes has been implemented by the Hong Kong Government. To help the business sector keep abreast of the environmental legislation in Hong Kong, this 12-hours course aims to provide the participants with up-to-date information on the 5 major Ordinances – Air Pollution Control, Noise Pollution Control, Water Pollution Control, Waste Disposal and Environmental Impact Assessment. Apart from covering the regulatory aspects, the course will also highlight the essences of environmental licensing and permitting. Case studies will also be presented to illustrate the practical ways for compliance and for developing good practices within an organisation.

Topics To Be Covered

- **Basics of environmental regulation and enforcement strategy**
 - Major approaches to environmental regulations
 - Law of tort
 - Enforcement strategy
- **Key elements of Water Pollution Control Ordinance, Air Pollution Control Ordinance, Noise Pollution Control Ordinance, Waste Disposal Ordinance and Environmental Impact Assessment Ordinance**
 - Regulatory control requirements
 - Environmental licensing and permitting
 - good practices on pollution control
 - Case studies

Learning Outcomes

- Acquire the essential knowledge on the regulatory control and licensing requirements of major current environmental legislation in Hong Kong; and
- Understand the good practices to reduce air, noise, water, waste and ecological impacts.

About Business Environment Council (BEC)

Business Environment Council Limited (BEC) is an independent, membership-based non-profit organization, established by the business sector in Hong Kong. Since its establishment in 1992, BEC has been at the forefront of promoting environmental excellence by advocating the uptake of clean technologies and practices which reduce waste, conserve resources, prevent pollution and improve corporate environmental and social responsibility. BEC offers sustainable solutions and professional services covering advisory, research, assessment, training and award programs for government, business and the community, thus enabling environmental protection and contributing to the transition to a low carbon economy. For more information in BEC, please visit www.bec.org.hk.

About BEC Institute of Environmental Education (BEC IEE)

BEC IEE, a division of BEC, provides a platform for business managers and decision makers, to advance their knowledge and develop the expertise necessary for environmental decision-making. BEC IEE also facilitates professional development by promoting quality environmental education through various environmental education programmes.
