

Regulatory Compliance for Environmental Legislation of Hong Kong (3rd Intake)

(84114)

A series of environmental legislation in different areas such as air, noise, wastewater, and chemical and construction wastes has been implemented by the Hong Kong Government. To help the business sector keep abreast of the environmental legislation in Hong Kong, this 6-hours course aims to provide the participants with up-to-date information on the 5 major Ordinances – Air Pollution Control, Noise Pollution Control, Water Pollution Control, Waste Disposal and Environmental Impact Assessment. Apart from covering the regulatory aspects, the course will also highlight the essences of environmental licensing and permitting. Case studies will also be presented to illustrate the practical ways for compliance and for developing good practices within an organisation.
