

Mr Guillaume Schoebel

Senior Vice President – Sustainability Strategy
Schneider Electric

Mr Guillaume Schoebel has been working for 28 years in the field of energy, most of this time spent with Schneider Electric.

Originally from a financial background, Mr Schoebel spent 12 years as a CFO or Finance Controller in different entities and countries of Schneider Electric, including in Asia at the time of the 1998 financial crisis. His last position in Finance, was Finance Control Senior VP for the International Division of Schneider Electric.

Mr Schoebel then moved to front office commercial operations. After learning the basic of Sales on the field, he then took positions of country manager, then led a cluster of countries in the Middle-East, before becoming Zone President for Africa. During these years, he got involved in the deployment of Schneider's sustainability policies, notably in the field of access to energy in Africa.

Since 2012, Mr Schoebel has held global roles, more specifically in the field of Global Sales Operations and Pricing, leading transformation programs for Sales forces and front offices.

In October 2018, Mr Schoebel has taken the position of Sustainability Strategy Senior VP.
