(Please tick the box for indicating the chosen category)

Action Signatory

Science-aligned Signatory

As a signatory, we shall also set and commit to decarbonization / net-zero target that is supported by a comprehensive action plan and share with the Charter secretariat from time to time as supporting documents for the pledged target.

About the Net-zero Carbon Charter

The Net-zero Carbon Charter is a signatory-based initiative in mobilising companies and organisations to collectively contribute towards Hong Kong's long term decarbonisation journey through their pledge to set targets and actions for a net-zero future.
