

Course Code: 89105

Design for Environment

Ms Sarah Mak

About the course

We have always been told to reduce-reuse-recycle. What else can be done by individuals, corporations, and governments to prevent pollution?

In this seminar, we will explore:

- What are companies doing with their products or services to help combat climate change?
- How is the manufacturing industry changing to minimize effects to the environment?
- What “environmentally friendly” activities are hurting the environment if we are not careful?
- Is “recycle” the end of the line for a product?

Sarah will share her insights and experience to these and other questions specific to product design, manufacturing, use, and disposal.

About the Speaker

Ms. Sarah Mak has over 30 years of experience specializing in Operational Excellence and Business Processes with a focus on environmental impact. She worked as an ISO 9000, QS 9000 (automotive), ISO 14000, and TickIT (software development) auditor and has audited almost 300 companies globally in a broad spectrum of industries in the manufacturing, service, IT, and software development sectors. She has also worked at various business units of Philips in global capacities relating to Business Excellence, as well as in the property management arm of Cheung Kong Holdings Limited.

About Business Environment Council Limited 商界環保協會有限公司

Business Environment Council Limited ("BEC") is an independent, charitable membership organisation, established by the business sector in Hong Kong. Since its establishment in 1992, BEC has been at the forefront of promoting environmental excellence by advocating the uptake of clean technologies and practices which reduce waste, conserve resources, prevent pollution and improve corporate environmental and social responsibility. BEC offers sustainable solutions and professional services covering advisory, research, assessment, training and award programs for government, business and the community, thus enabling environmental protection and contributing to the transition to a low carbon economy. For more information about BEC, please visit www.bec.org.hk.

About BEC Institute of Environmental Education

BEC Institute of Environmental Education ("BEC IEE"), a division of BEC, provides a platform for business managers and decision makers, to advance their knowledge and develop the expertise necessary for environmental decision-making. BEC IEE also facilitates professional development by promoting quality environmental education through various environmental education programmes.

About Hong Kong Institute of Qualified Environmental Professionals

Hong Kong Institute of Qualified Environmental Professionals (HKIQEP) was established in 2015 by a group of dedicated professionals in the environmental field comprising of representatives from the corporate, public and academic sectors, as well as partners from other professional institutes. It aims to develop the environmental services industry as one of the pillar industries of Hong Kong and to transform Hong Kong into a center of excellence in professional environmental services within the GBA. It can help create more quality jobs for our future generations and further Hong Kong's longstanding strengths in professional industries. For more information about HKIQEP, please visit <https://hkiqep.org/>.
